WELCOME TO ULTIMATE ALL STARS BREVARD!

Thank you so much for your interest in Ultimate All Stars Brevard. We are an all-star Competitive Cheerleading and Hip Hop Program located in Melbourne, Florida. 2025-2026 is our SECOND season and we are very excited to be growing and being agents of change in Brevard County. Our collective coaching style is one that uplifts children while teaching them the value of hard work, sportsmanship, athleticism, and RESPECT. There is a mutual respect given to our athletes as well as the expectation of being respected in return. The goal is to be competitive, yet humble. We want to be the program that others emulate through our positive environment and family first mentality.

TEAM PLACEMENTS

Tryouts for Midseason Teams will be on Saturday, November 22. All teams will be formed and ready to go for practices that start the week of December 1. However, if necessary, we will make changes of placements over the next 6 - 8 weeks depending on an athlete's progression, work ethic, etc.

Each athlete will be evaluated individually. However, for time purposes, they will be seen in small groups. The entire process should take about 30 minutes from check in to completion. Please have your child check in 15 minutes prior to their scheduled time to get their number and their picture taken.

The tryout process is one of the most important times of the year. It is our opportunity to put together the absolute best teams we can so that we are successful for the upcoming half year season. We ask that parents are patient, understanding and most of all, trusting. Our coaches are experienced, knowledgeable and want nothing more than to maximize the potential of EVERY child in our program. We are making the best decision for Ultimate and the talent presented to us. Any previous teams or levels athletes have experienced prior to tryouts does not mean those same placements will be used for our teams. We will take into consideration an athlete's previous experience, but ultimately we will be making the best decisions to create the most dynamic teams possible.

Please refer to the Tumbling Breakdown to assess where your child's tumbling level may be at the present time. These are the skills that we need to execute to ensure us the highest tumbling scores in our respective divisions. We are looking for athletes to be able to execute 2 standing and 2 running skills in their appropriate level.

TRYOUT SKILL CHART - PREP
